

# Easily Collect and Organize Your Event Content with Greenfly +Engage

**Collect videos and photos, organize all your media files and make it accessible for use on digital channels. All through Greenfly +Engage.**

Whether you're part of a college athletic department or a youth sports organization, collecting game day photos and videos can be a nightmare. Media files are captured across multiple devices. Transferring the files from each contributor and then storing them in one central location further adds to the manual workflow.

With Greenfly +Engage, you can eliminate your manual process and rely on one platform to easily collect and organize your event content.

No matter how many teams you oversee or the number of events you have, easily gather and organize media submitted by your staff, parents and fans through a mobile-friendly webpage.

## Get Event-Based Content Collection for Your Sports Organizations

For a limited time, Greenfly is offering a special promotion on +Engage for Event-Based Content Collection. Get one +Engage webpage with your branding, unlimited media collection, and up to three (3) administrative users at a special price. Inquire for more information.

## Trusted by the World's Leading Sports Organizations

### Your Branded Webpage

Collaborate with Greenfly on the look and feel of your webpage and provide instructions to your staff, parents and fans.

### Collect Media of Any Size

Fans record and capture content, click your branded +Engage webpage and then submit media file(s).

### Organize Submissions Automatically

All submissions can be reviewed immediately. All assets are searchable and accessible to any Greenfly user in the organization. They can be exported or downloaded for editing.

### Retain Content Ownership

Your organization maintains intellectual property and usage rights on each media asset shared with you. When it's submitted, the media is yours to use, edit and distribute as you desire. It's royalty-free in perpetuity.
